Board of Directors
Lake Hemet Municipal Water District

Introduction

It is our pleasure to submit the Annual Financial Report for the Lake Hemet Municipal Water District (District) for the fiscal years ended June 30, 2014 and 2013, following guidelines set forth by the Governmental Accounting Standards Board. District staff prepared this financial report. The District is ultimately responsible for both the accuracy of the data and the completeness and the fairness of presentation, including all disclosures in this financial report. We believe that the data presented is accurate in all material respects. The report is designed in a manner that we believe to be necessary to enhance the understanding of the District's financial position and activities.

This report is organized into two sections: (1) Introductory and (2) Financial. The Introductory section offers general information about the District's organization and current District activities and reports on a summary of significant financial results. The Financial section includes the Independent Auditor's Report, Management's Discussion and Analysis of the District's basic financial statements, the District's audited basic financial statements with accompanying Notes, and Supplemental Information.

Generally Accepted Accounting Principles (GAAP) requires that management provide a narrative introduction, overview and analysis to accompany the financial statements in the form of the Management's Discussion and Analysis (MD&A) section. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The District's MD&A can be found immediately after the Independent Auditor's Report.

District Structure and Leadership

The Lake Hemet Municipal Water District is an independent special district, which was organized under the provisions of the Municipal Water District Act of 1911, as amended, and was incorporated on August 4, 1955. The District was created for the purpose of importing and delivering water to retail customers within its service area. The District is governed by a five-member Board of Directors, elected at-large from within the District's service area. The District General Manager administers the day-to-day operations of the District in accordance with policies and procedures established by the Board of Directors. The Lake Hemet Municipal Water District employs a full-time staff of 57 employees. The

District's Board of Directors meets on the 3rd Thursday of each of each month. Meetings are publicly noticed and citizens are encouraged to attend.

The District is located in Riverside County, California and covers an area of approximately 26 square miles, providing water distribution and sewage collection within its boundaries to the communities of Hemet, San Jacinto, and adjacent unincorporated areas of Riverside County. The customer base is approximately 95% residential, 1% agricultural and 4% commercial. The District currently provides water to over 14,180 connections and receives its water supply from four sources 1) local ground water, 2) Lake Hemet, 3) stream flow when available, and 4) Eastern Municipal Water District who in turn purchases from Metropolitan Water District.

Economic Condition and Outlook

The District's administrative office is located in the unincorporated area of Riverside County, Valle Vista. The inland area has witnessed a slow economic recovery after several years of severe recessionary pressures.

California's water supply continues to be a concern due to projected population increases and a decrease in water supply levels. This concern has increased interest in conservation and in irrigation methods and systems.

Major Initiatives

The activities of the Board and staff of the District are driven by its Mission Statement: "The mission of the Lake Hemet Municipal Water District is to produce and deliver high-quality water to our customers for domestic and agricultural uses, to provide sewer collection services and to maintain Lake Hemet as a clean and safe water reservoir and recreational facility in an economical, efficient, and responsible manner, now and into the future."

1. To supply clean, wholesome water to the community and provide water for the future.
2. To plan, construct, operate, maintain, and upgrade the water and wastewater systems facilities to adequately serve customer needs.
3. To utilize the District's financial resources in an effective, responsible, and prudent manner.
4. To provide quality customer service for District customers.
5. To inform, educate, and communicate with the community on District and water issues.
6. To review and maintain a plan to be proactive in preventative maintenance of the District's water and sewer systems.

All programs and operations of the District are developed and performed to provide the highest level of services to its customers.

Internal Control Structure

District management is responsible for the establishment and maintenance of the internal control structure that ensures the assets of the District are protected from loss, theft, or misuse. The internal control structure also ensures that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The District's internal control structure is designed to provide reasonable assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived, and (2) the valuation of costs and benefits requires estimates and judgments by management.

Budgetary Control

The District Board of Directors adopts an operating and capital budget every year. The budget authorizes and provides the basis for reporting and control of financial operations and accountability for the

District's enterprise operations and capital projects. The budget and reporting treatment applied to the District is consistent with the accrual basis of accounting and the financial statement basis.

Investment Policy

The Board of Directors has adopted an investment policy that conforms to state law, District ordinance and resolutions, prudent money management, and the "prudent person" standards. The objective of the Investment Policy is safety, liquidity, and yield.

Water and Sewer Rates and District Revenues

District policy direction ensures that all revenues from user charges and surcharges generated from District customers must support all District operations including capital project funding. Accordingly, water and sewer rates are reviewed periodically. Water and wastewater rates are user charges imposed on customers for services and are the primary component of the District's revenue. Water rates are composed of a commodity (usage) charge and a fixed (readiness-to-serve) charge. Wastewater rates are a flat charge to all residential dwelling units.

Audit and Financial Reporting

State Law and Bond covenants require the District to obtain an annual audit of its financial statements by an independent certified public accountant. The accounting firm of Charles Z. Fedak & Company, CPAs has conducted the audit of the District's financial statements. Their unmodified Independent Auditor's Report appears in the Financial Section.

Other References

More information is contained in the Management's Discussion and Analysis and the Notes to the Basic Financial Statements found in the Financial Section of the report.

Acknowledgements

Preparation of this report was accomplished by the combined efforts of District staff. We appreciate the dedicated efforts and professionalism that these staff members contribute to the District. We would also like to thank the members of the Board of Directors and especially the Finance Committee members for their continued support in planning and implementation of the Lake Hemet Municipal Water District's fiscal policies.

Respectfully submitted,

Thomas W. Wagoner

Independent Auditor's Report

Board of Directors
Lake Hemet Municipal Water District
Hemet, California

Report on the Financial Statements

We have audited the accompanying financial statements of the Lake Hemet Municipal Water District (District) as of and for the years ended June 30, 2014 and 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the State Controller's Minimum Audit Requirements for California Special Districts. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the of the Lake Hemet Municipal Water District, as of June 30, 2014 and 2013, and the respective changes in financial position, and, where applicable, cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Independent Auditor's Report, continued

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information on pages 6 through 10 and 35 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The introductory section on pages 1 through 3, and the supplemental information schedules on pages 36 through 38, are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information schedules are fairly stated in all material respects in relation to the basic financial statements as a whole. The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2014 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Lake Hemet Municipal Water District
Management's Discussion and Analysis
For the Fiscal Years Ended June 30, 2014 and 2013

The following Management's Discussion and Analysis (MD&A) of activities and financial performance of the Lake Hemet Municipal Water District (District) provides an introduction to the financial statements of the District for the fiscal years ended June 30, 2014 and 2013. We encourage readers to consider the information presented here in conjunction with the transmittal letter in the Introductory Section and with the basic financial statements and related notes, which follow this section.

Financial Highlights

- The District's net position decreased 0.34%, or \$196,958 to \$58,285,064, in 2014. In 2013, the District's net position decreased 0.91% or \$539,183 to \$58,482,022.
- The District's operating revenues increased 8.19% or \$1,100,428 in 2014. In 2013, the District's operating revenues increased 4.57% or \$587,712.
- The District's operating expense increased 3.20% or \$370,087 in 2014. In 2013, the District's operating expense increased 33.09% or \$2,872,448.

Required Financial Statements

This annual report consists of a series of financial statements. The Statement of Net Position, Statement of Revenues, Expenses and Changes in Net Position and Statement of Cash Flows provide information about the activities and performance of the District using accounting methods similar to those used by private sector companies.

The Statement of Net Position includes all of the District's investments in resources (assets), deferred outflows of resources, and the obligations to creditors (liabilities), and deferred inflows of resources. It also provides the basis for computing a rate of return, evaluating the capital structure of the District and assessing the liquidity and financial flexibility of the District. All of the current year's revenue and expenses are accounted for in the Statement of Revenues, Expenses and Changes in Net Position. This statement measures the success of the District's operations over the past year and can be used to determine if the District has successfully recovered all of its costs through its rates and other charges. This statement can also be used to evaluate profitability and credit worthiness. The final required financial statement is the Statement of Cash Flows, which provides information about the District's cash receipts and cash payments during the reporting period. The Statement of Cash Flows reports cash receipts, cash payments and net changes in cash resulting from operations, investing, non-capital financing, and capital and related financing activities and provides answers to such questions as where did cash come from, what was cash used for, and what was the change in cash balance during the reporting period.

Financial Analysis of the District

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of this year's activities?" The Statement of Net Position and the Statement of Revenues, Expenses and Changes in Net Position report information about the District in a way that helps answer this question. These statements include all assets, deferred outflows, liabilities, and deferred inflows using the *accrual basis of accounting*, which is similar to the accounting used by most private sector companies. All of the current year's revenues and expenses are taken into account regardless of when the cash is received or paid.

These two statements report the District's *net position* and changes in them. You can think of the District's net position, as one way to measure the District's financial health, or *financial position*. Over time, *increases or decreases* in the District's net position are one indicator of whether its *financial health* is improving or deteriorating. However, one will need to consider other non-financial factors such as changes in economic conditions, population growth, zoning and new or changed government legislation, such as changes in Federal and State water quality standards.

Lake Hemet Municipal Water District
Management's Discussion and Analysis
For the Fiscal Years Ended June 30, 2014 and 2013

Financial Analysis of the District (Continued)

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the basic financial statements can be found on pages 16 through 34.

Statements of Net Position

Condensed Statements of Net Position

	<u>2014</u>	<u>2013</u>	<u>Change</u>	<u>Percentage</u>
Assets:				
Current assets	\$ 21,617,853	23,977,433	(2,359,580)	-9.84%
Non-current assets	280,000	285,000	(5,000)	-1.75%
Capital assets, net	<u>58,777,083</u>	<u>58,574,258</u>	<u>202,825</u>	<u>0.35%</u>
Total assets	<u>80,674,936</u>	<u>82,836,691</u>	<u>(2,161,755)</u>	<u>-2.61%</u>
Liabilities:				
Current liabilities	3,107,515	4,143,851	(1,036,336)	-25.01%
Non-current liabilities	<u>19,282,357</u>	<u>20,210,818</u>	<u>(928,461)</u>	<u>-4.59%</u>
Total liabilities	<u>22,389,872</u>	<u>24,354,669</u>	<u>(1,964,797)</u>	<u>-8.07%</u>
Net position:				
Net investment in capital assets	39,699,363	38,646,002	1,053,361	2.73%
Restricted	3,267,081	3,894,007	(626,926)	-16.10%
Unrestricted	<u>15,318,620</u>	<u>15,942,013</u>	<u>(623,393)</u>	<u>-3.91%</u>
Total net position	<u>\$ 58,285,064</u>	<u>58,482,022</u>	<u>(196,958)</u>	<u>-0.34%</u>

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the District, assets of the District exceeded liabilities by \$58,285,064 and \$58,482,022 as of June 30, 2014 and 2013, respectively.

By far the largest portion of the District's net position (68% and 66% as of June 30, 2014 and 2013, respectively) reflects the District's investment in capital assets (net of accumulated depreciation) less any related debt used to acquire those assets that is still outstanding. The District uses these capital assets to provide services to customers within the District's service area; consequently, these assets are not available for future spending.

At the end of fiscal year 2014 and 2013, the District showed a positive balance in its unrestricted net position of \$15,318,620 and \$15,942,013 as restated, respectively.

Capital contributions	<u>105,378</u>	<u>125,315</u>	<u>(19,937)</u>	<u>-15.91%</u>
Change in net position	<u>(196,958)</u>	<u>(539,183)</u>	<u>342,225</u>	<u>-63.47%</u>
Net position – beginning of year	<u>58,482,022</u>	<u>59,021,205</u>	<u>(539,183)</u>	<u>-0.91%</u>
Net position – end of year	<u>\$ 58,285,064</u>	<u>58,482,022</u>	<u>(196,958)</u>	<u>-0.34%</u>

The statements of revenues, expenses and changes of net position show how the District's net position changed during the fiscal years. The District's, net position decreased by \$196,958 in fiscal year 2014, and decreased by \$539,183 in fiscal year 2013.

A closer examination of the sources of changes in net position reveals that:

In 2014, the District's total revenues increased 6.89% or \$1,038,652. Total operating revenues increased by \$1,100,428 primarily due to a \$980,631 increase in water consumption. Non-operating revenues decreased 3.76% or \$61,776 primarily due to increases in campground operations of \$37,257 that was offset by decreases in tax revenues of \$22,263, and decrease in investment earnings of \$13,444.

In 2013, the District's total revenues increased 4.00% or \$580,417 primarily due to a \$501,184 increase in operating revenues related to water operations consumption and service charges. Non-operating revenues decreased 0.44% or \$7,295 primarily due to increases in tax revenues of \$40,146, and increase in the gain on sale of assets of \$26,734, that was offset by decreases in rental income of \$50,075, and investment earnings of \$25,846.

In 2014, the District's total expenses increased by 4.30% or \$676,490. Total operating expenses increased by \$370,087 primarily due to increases in pumping expense of \$320,963, and general and administrative expenses of \$306,443 that was offset by a \$353,411 decrease in source of supply expense. Total non-operating expenses increased 3.54% or \$200,102 primarily due to a decrease in amortization charges in the amount of \$324,487 related to the implementation of GASB 65 in 2013 which was offset by an \$113,817 increase in interest expense, and a \$484,243 loss on disposal of capital assets.

In 2013, the District's total expenses increased by 25.97% or \$3,245,461 primarily due to a \$561,484 decrease in general and administrative expenses that were offset by a \$3,309,500 increase in operating expense related to source of supply expense. Total non-operating expenses increased 8.27% or \$90,836 primarily due to a \$222,554 decrease in interest expense which was offset by a one-time increase in amortization expense of \$311,700 related to the implementation of GASB 65.

Lake Hemet Municipal Water District
Management's Discussion and Analysis
For the Fiscal Years Ended June 30, 2014 and 2013

Capital Asset Administration

At the end of fiscal years 2014 and 2013, the District's investment in capital assets amounted to \$58,777,083 and \$58,574,258, respectively, (net of accumulated depreciation). This investment in capital assets includes land, transmission and distribution systems, collection systems, buildings and structures, equipment, and vehicles, etc. Major capital assets additions during the year included upgrades to the District's water operations production and transmission and distribution systems.

Changes in capital asset amounts for 2014 were as follows:

	Balance 2013	Additions	Transfers/ Deletions	Balance 2014
Non-depreciable assets	\$ 1,262,037	3,845,170	(4,358,959)	748,248
Depreciable assets	97,588,903	3,808,045	(193,247)	101,203,701
Accumulated depreciation	(40,276,682)	(3,107,976)	209,792	(43,174,866)
Total capital assets, net	<u>\$ 58,574,258</u>	<u>4,545,239</u>	<u>(4,342,414)</u>	<u>58,777,083</u>

Changes in capital asset amounts for 2013 were as follows:

	Balance 2012	Additions	Transfers/ Deletions	Balance 2013
Non-depreciable assets	\$ 2,101,123	2,203,380	(3,042,466)	1,262,037
Depreciable assets	92,958,684	4,972,643	(342,424)	97,588,903
Accumulated depreciation	(37,649,107)	(2,945,539)	317,964	(40,276,682)
Total capital assets, net	<u>\$ 57,410,700</u>	<u>4,230,484</u>	<u>(3,066,926)</u>	<u>58,574,258</u>

(See note 4 for further discussion)

Debt Administration

Changes in long-term debt amounts for 2014 were as follows:

	Balance 2013	Additions	Principal Payments	Balance 2014
Notes payable	\$ 8,802,547	-	(456,330)	8,346,217
Loan payable	2,603,936	-	(199,155)	2,404,781
Bond payable	1,480,000	-	(55,000)	1,425,000
Certificates of Participation payable	7,550,000	-	(140,000)	7,410,000
Total long-term debt	<u>\$ 20,436,483</u>	<u>-</u>	<u>(850,485)</u>	<u>19,585,998</u>

Changes in long-term debt amounts for 2013 were as follows:

	Balance 2012	Additions	Principal Payments	Balance 2013
Notes payable	\$ 9,234,677	-	(432,130)	8,802,547
Loan payable	2,798,530	-	(194,594)	2,603,936
Bond payable	1,535,000	-	(55,000)	1,480,000
Certificates of Participation payable	7,685,000	-	(135,000)	7,550,000
Total long-term debt	<u>\$ 21,253,207</u>	<u>-</u>	<u>(816,724)</u>	<u>20,436,483</u>

(See note 6 for further discussion)

Lake Hemet Municipal Water District
Notes to the Basic Financial Statements (Continued)
For the Fiscal Years Ended June 30, 2014 and 2013

(1) Summary of Significant Accounting Policies

A. Organization and Operations of the Reporting Entity

The Lake Hemet Municipal Water District is an independent special district, which was organized under the provisions of the Municipal Water District Act of 1911, as amended, and was incorporated on August 4, 1955. The District was created for the purpose of importing and delivering water to retail customers within its service area. The District is governed by a five-member Board of Directors, elected at-large from within the District's service area.

B. Basis of Accounting and Measurement Focus

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the District is that the costs of providing water and sewer services to its customers on a continuing basis be financed or recovered primarily through user charges (water and sewer service fees). Revenues and expenses are recognized on the accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred, regardless of when the related cash flows take place.

Operating revenues and expenses, such as water sales and water purchases, result from exchange transactions associated with the principal activity of the District. Exchange transactions are those in which each party receives and gives up essentially equal values. Management, administration and depreciation expenses are also considered operating expenses. Other revenues and expenses not included in the above categories are reported as non-operating revenues and expenses.

The District recognizes revenue from water and sewer service charges based on cycle billings performed monthly with the exception of the Garner Valley area which is billed on a bi-monthly basis. The District accrues revenues with respect to water and sewer service sold but not billed at the end of a fiscal period.

C. Financial Reporting

The District's basic financial statements have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as applied to enterprise funds. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The District solely operates as a special-purpose government which means it is only engaged in business-type activities; accordingly, activities are reported in the District's proprietary fund.

D. Assets, Liabilities, and Net Position

1. Use of Estimates

The preparation of the basic financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported changes in net position during the reporting period.

2. Cash and Cash Equivalents

Substantially all of the District's cash is invested in interest bearing accounts. The District considers all highly liquid investments with a maturity of three months or less at the time of purchase to be cash equivalents.

Lake Hemet Municipal Water District
Notes to the Basic Financial Statements (Continued)
For the Fiscal Years Ended June 30, 2014 and 2013

(1) Summary of Significant Accounting Policies, continued

D. Assets, Liabilities, and Net Position, continued

3. Investments and Investment Policy

The District has adopted an investment policy directing the Director of Finance to deposit funds in financial institutions. Changes in fair value that occur during a fiscal year are recognized as investment income reported for that fiscal year. Investment income includes interest earnings, changes in fair value, and any gains or losses realized upon the liquidation or sale of investments.

4. Restricted Assets

Certain assets of the District are restricted in use by ordinance or debt covenant and, accordingly, are shown as restricted assets on the accompanying statement of net position. The District uses restricted resources prior to using unrestricted resources to pay expenditures meeting the criteria imposed on the use of restricted resources by a third party.

5. Accounts Receivable

The District extends credit to customers in the normal course of operations. When Management deems a customer account uncollectable, the District uses the direct method for the write-off of those accounts.

6. Prepaid Expenses

Certain payments to vendors reflects costs or deposits applicable to future accounting periods and are recorded as prepaid items in the basic financial statements.

7. Inventory

Inventory consists primarily of materials used in construction and maintenance of the water and sewer system and is stated at cost using the average-cost method.

8. Capital Assets

Capital assets acquired and/or constructed are capitalized at historical cost. District policy has set the capitalization threshold for reporting capital assets at \$1,000. Contributed assets are recorded at estimated fair market value at the date of contribution. Upon retirement or other disposition of capital assets, the cost and related accumulated depreciation are removed from the respective balances and any gains or losses are recognized. Depreciation is recorded on a straight-line basis over the estimated useful lives of the assets as follows:

• Source of Supply	33.3 years
• Power Plant	33.3 years
• Pumping Equipment	20.0 years
• Water Treatment Equipment	33.3 years
• Transmission & Distribution Plant	33.3 years
• General Plant	5.0 to 33.3 years

9. Compensated Absences

The District's policy is to permit employees to accumulate earned sick leave and vacation according to the number of years of service with the District vacation to a maximum of 960 and 160 hours respectively. Sick leave is to be used for extended periods of sickness; however, upon termination or retirement, a portion is paid as additional benefits to the employee. All employees who separate from the District who have completed at least five years of continuous service and/or have been authorized to use their sick leave are entitled to receive 30% to 100% of the then unused sick leave at their regular payroll rate. The liability for vested vacation and sick leave is recorded as an expense when earned and become vested, in accordance with District policy.

Notes to the Basic Financial Statements (Continued)
For the Fiscal Years Ended June 30, 2014 and 2013

(1) Summary of Significant Accounting Policies, continued

D. Assets, Liabilities, and Net Position, continued

10. Deposit Connection Fees

Connection fees are collected by the District to cover the cost of service connections within the District.

11. Water and Sewer Sales

The District recognizes water and sewer services charges based on cycle billings rendered to the customers on a monthly basis with the exception of the Garner Valley area which is billed on a bi-monthly basis.

12. Capital Contributions

Capital contributions represent cash and capital asset additions contributed to the District by property owners or real estate developers desiring services that require capital expenditures or capacity commitment.

13. Budgetary Policies

The District adopts a one year non-appropriated budget for planning, control, and evaluation purposes. Budgetary control and evaluation are affected by comparisons of actual revenues and expenses with planned revenues and expenses for the period. Encumbrance accounting is not used to account for commitments related to unperformed contracts for construction and services.

14. Net Position

The District follows the financial reporting requirements of the GASB and reports net position under the following classifications:

- **Net Investment in Capital Assets** – This component of net position consists of capital assets, net of accumulated depreciation and reduced by any outstanding debt against the acquisition, construction or improvement of those assets.
- **Restricted Net position** – This component of net position consists of constraints placed on net position use through external constraints imposed by creditors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.
- **Unrestricted Net position** – This component of net position consists of net position that does not meet the definition of *restricted* or *net investment in capital assets*.

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party.

With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF).

The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits or investments, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies.

California law also allows financial institutions to secure District deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits. Of the bank balances, up to \$250,000 at June 30, 2014 and 2013, respectively, is federally insured and the remaining balance is collateralized in accordance with the Code; however, the collateralized securities are not held in the District's name.

Lake Hemet Municipal Water District
Notes to the Basic Financial Statements (Continued)
For the Fiscal Years Ended June 30, 2014 and 2013

(2) Cash and Investments, continued

Investment in State Investment Pool

The District is a voluntary participant in the Local District Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying financial statements at amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to change in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio matures or comes close to maturity evenly over time as necessary to provide requirements for cash flow and liquidity needed for operations. Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity date:

Interest Rate Risk

Maturities of investments at June 30, 2014, were as follows:

<u>Investment Type</u>	<u>Total</u>	<u>Remaining Maturity</u> <u>12 Months</u> <u>Or Less</u>
Local Agency Investment Fund (LAIF)	\$ 2,778,854	2,778,854
Money Market Mutual Funds	6,624,057	6,624,057
Investment with fiscal agent:		
Money Market Mutual Funds	131,274	131,274
Total	<u>\$ 9,534,185</u>	<u>9,534,185</u>

Maturities of investments at June 30, 2013, were as follows:

<u>Investment Type</u>	<u>Total</u>	<u>Remaining Maturity</u> <u>12 Months</u> <u>Or Less</u>
Local Agency Investment Fund (LAIF)	\$ 3,071,673	3,071,673
Money Market Mutual Funds	6,805,659	6,805,659
Investment with fiscal agent:		
Money Market Mutual Funds	131,261	131,261

(2) Cash and Investments, continued

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the California Government Code, the District's investment policy, or debt agreements, and the actual rating as of year end for each investment type.

Credit ratings of investments as of June 30, 2014 were as follows:

<u>Investment Types</u>	<u>Total</u>	<u>Minimum Legal Rating</u>	<u>Rating AAA</u>	<u>Not Rated</u>
Local Agency Investment Fund (LAIF)	\$ 2,778,854	N/A	\$ -	2,778,854
Money Market Mutual Funds	6,624,057	AAA	6,624,057	-
Investment with fiscal agent:				
Money Market Mutual Funds	131,274	AAA	131,274	-
Total	<u>\$ 9,534,185</u>		<u>\$ 6,755,331</u>	<u>2,778,854</u>

Credit ratings of investments as of June 30, 2013 were as follows:

<u>Investment Types</u>	<u>Total</u>	<u>Minimum Legal Rating</u>	<u>Rating AAA</u>	<u>Not Rated</u>
Local Agency Investment Fund (LAIF)	\$ 3,071,673	N/A	\$ -	3,071,673
Money Market Mutual Funds	6,805,659	AAA	6,805,659	-
Investment with fiscal agent:				
Money Market Mutual Funds	131,261	AAA	131,261	-
Total	<u>\$ 10,008,593</u>		<u>\$ 6,936,920</u>	<u>3,071,673</u>

Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code.

(3) Note Receivable, Beaumont Concrete Settlement

In 2001, the District settled a claim against Beaumont Concrete in the amount of \$365,000. Terms of the settlement agreement call for annual payments to the District with the final payment due in 2046.

Changes in note receivable amounts for the year ended June 30, 2014 were as follows:

	<u>Balance 2013</u>	<u>Payments Received</u>	<u>Balance 2014</u>	<u>Current Portion</u>	<u>Non-Current Portion</u>
Note receivable	\$ 290,000	(5,000)	285,000	5,000	280,000

Changes in note receivable amounts for the year ended June 30, 2013 were as follows:

	<u>Balance 2012</u>	<u>Payments Received</u>	<u>Balance 2013</u>	<u>Current Portion</u>	<u>Non-Current Portion</u>
Note receivable	\$ 295,000	(5,000)	290,000	5,000	285,000

Total non-current	\$ 7,265,000		

(7) Defined Benefit Pension Plan

Plan Description

The District contributes to the California Public Employees Retirement System (CalPERS), a cost-sharing multi-employer defined benefit pension plan. CalPERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. CalPERS acts as a common investment and administrative agent for participating public agencies within the State of California. Benefit provisions and all other requirements are established by state statute and the District. Copies of CalPERS annual financial report may be obtained from their executive Office: 400 P Street, Sacramento, CA, 95814.

Funding Policy

The contribution rate for plan members in the CalPERS, 2.0% at 55 Risk Pool Retirement Plan is 7% of their annual covered salary and is paid by the District. The District makes these contributions required of District employees on their behalf and for their account. Also, the District is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members. The required employer contribution rates are equal to the annual pension costs (APC) percentage of payroll for fiscal years 2014, 2013 and 2012 as noted below. The contribution requirements of the plan members are established by State statute, and the employer contribution rate is established and may be amended by CalPERS.

Lake Hemet Municipal Water District
Notes to the Basic Financial Statements (Continued)
For the Fiscal Years Ended June 30, 2014 and 2013

(7) Defined Benefit Pension Plan, continued

Funding Policy, continued

California Public Employees' Pension Reform Act of 2013

On September 12, 2012, the California Governor signed the California Public Employees' Pension Reform Act of 2013 (PEPRA) into law. PEPRA took effect January 1, 2013.

Funding Policy

Key components of the legislation are as follows:

- Establishes PEPRA which will apply to all public employers and public pension plans on and after January 1, 2013 (Except specific exemptions);
- Establishes new retirement tiers/benefits for new public employees;
- Prohibits certain cash payments from being counted as compensation; and
- Increases retirement age for all new public employees.

Second-Tier – Beginning January 1, 2013

The contribution rate for plan members in the CalPERS 2.0% at 62 Retirement Plan under PEPRA is 6.25% of their annual covered wages. The District filed a Certification of Memorandum of Understanding (MOU) Impairment with CalPERS prior to January 1, 2013. All District employees hired before January 1, 2013 contribute 2.8% and District employees hired on or after January 1, 2013 contribute 6.25% of their annual covered wages to their account. Also, the District is required to contribute the actuarially determined remaining amounts necessary to fund the benefits for its members.

For Fiscal years 2014, 2013 and 2012, the District's annual contributions for the CalPERS plan were equal to the Agencies required and actual contributions for each fiscal year as follows:

Three Year Trend Information:

<u>Fiscal Year</u>	<u>Annual Pension Cost (APC)</u>	<u>Percentage of APC Contributed</u>	<u>APC Percentage of Payroll</u>
2014	\$ 604,884	100%	10.333%
2013	628,709	100%	9.765%
2012	776,556	100%	10.985%

For the benefit of its employees, the District participates in a 457 Deferred Compensation Program (Program) administered by ING and Nationwide through administrative service agreements. The purpose of this program is to provide deferred compensation for public employees that elect to participate in the Program. Generally, eligible employees may defer receipt of a portion of their salary until termination, retirement, death, or unforeseen emergency. Until the funds are paid or otherwise made available to the employee, the employee is not obligated to report the deferred salary for income tax purposes.

Federal law requires deferred compensation assets to be held in trust for the exclusive benefit of the participants. Accordingly, the District is in compliance with this legislation. Therefore, these assets are not the legal property of the District, and are not subject to claims of the District's general creditors. Market value of all plan assets held in trust by the District plan amounted to \$2,924,449 and \$2,752,826 in fiscal years 2014 and 2013, respectfully.

The District has implemented GASB Statement No. 32, Accounting for Financial Reporting for Internal Revenue code Section 457 Deferred Compensation Plans. Since the District has little administrative involvement and does not perform the investing function of this plan, the assets and related liabilities are not shown on the Statements of Net Position.

Lake Hemet Municipal Water District
Notes to the Basic Financial Statements (Continued)
For the Fiscal Years Ended June 30, 2014 and 2013

(8) Other Post-Employment Benefits Payable

The District provides other post-employment benefits (OPEB) to qualified employees who retire from the District and meet the District's vesting requirements. During the fiscal year ended June 30, 2010, the District implemented GASB Statement No. 45, which changed the accounting and financial reporting used by local government employers for post employment benefits. Previously, the costs of such benefits were generally recognized as expenses of local government employers on a pay-as-you-go basis. The new reporting requirements for these benefit programs as they pertain to the District are set forth below.

Plan Description – Eligibility

A retired employee and dependent spouse, or spouse of a deceased employee or retiree must satisfy the following requirements in order to be eligible for post employment medical and dental benefits:

- Employee who retires with at least 10 years of continuous service.

If the spouse of a deceased employee or retiree remarries and becomes eligible for health benefits under his/her new spouse's health plan, all District benefits shall be terminated.

Membership in the OPEB plan consisted of the following members as of June 30:

	2014	2013	2012
Active plan members	44	44	44
Retirees and beneficiaries receiving benefits	11	11	11
Separated plan members entitled to but not yet receiving benefits	-	-	-
Total plan membership	55	55	55

Plan Description – Benefits

The District offers post employment medical benefits to retired employees who satisfy the eligibility rules. The District contributes up to \$112 plus up to sixty-six (\$66) per month towards District retirees' health insurance premiums for those District employees who retire with ten years of service and are taking District medical insurance at the time of retirement. These payments will continue until the earlier of the death of the retiree or the retiree ceasing to be covered under the District's medical plan.

Funding Policy

The District is required to accrue the *Annual Required Contribution (ARC) of the Employer*, an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The current ARC rate is 0.23% of the annual covered payroll.

Annual Cost

For the year ended June 30, 2014, the District's ARC cost is \$23,430. The District's net OPEB payable obligation amounted to \$101,907 for the year ended June 30, 2014. The District contributed \$20,592 in age adjusted contributions for current retiree OPEB premiums for the year ended June 30, 2014.

Notes to the Basic Financial Statements (Continued)
For the Fiscal Years Ended June 30, 2014 and 2013

(8) Other Post-Employment Benefits Payable, continued

The balance at June 30, consists of the following:

	<u>2014</u>	<u>2013</u>	<u>2012</u>
Annual OPEB expense:			
Annual required contribution (ARC)	\$ 23,430	7,017	5,512
Interest on net OPEB obligation	-	-	-
Adjustment to annual required contribution	-	-	(52,604)
Total annual OPEB expense	<u>23,430</u>	<u>7,017</u>	<u>(47,092)</u>
Change in net OPEB payable obligation:			
Age adjusted contributions made	<u>(20,592)</u>	<u>(15,180)</u>	<u>(7,920)</u>
Total change in net OPEB payable obligation	2,838	(8,163)	(55,012)
OPEB payable – beginning of year	<u>99,069</u>	<u>107,232</u>	<u>162,244</u>
OPEB payable – end of year	<u>\$ 101,907</u>	<u>99,069</u>	<u>107,232</u>

Annual Cost, continued

The District's annual OPEB cost, the percentage of the annual OPEB cost contributed to the Plan, and the net OPEB obligation for fiscal year 2014 and the two preceding years were as follows:

<i>Three-Year History of Net OPEB Obligation</i>				
<u>Fiscal Year Ended</u>	<u>Annual OPEB Cost</u>	<u>Age Adjusted Contribution</u>	<u>Percentage of Annual OPEB Cost Contributed</u>	<u>Net OPEB Obligation Payable</u>
2014	\$ 23,430	20,592	0.00%	\$ 101,907
2013	7,017	15,180	0.00%	99,069
2012	(47,092)	7,920	0.00%	107,232

Funded Status and Funding Progress of the Plan

The most recent valuation (dated June 30, 2014) includes an Actuarial Accrued Liability and Unfunded Actuarial Accrued Liability of \$101,907. The covered payroll (annual payroll of active employees covered by the plan) for the year ended June 30, 2014 was \$3,800,000. The ratio of the unfunded actuarial accrued liability to annual covered payroll is 8.99%.

See the Schedule of Funding Status of the District's Other Post-Employment Benefits Obligation in the Required Supplementary Information Section on Page 35.

Actuarial Methods and Assumptions

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Calculations are based on the types of benefits provided under the terms of the substantive plan at the time of each valuation and the pattern of sharing of costs between the employer and plan members to that point.

Consistent with the long-term perspective of actuarial calculations, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities for benefits.

Lake Hemet Municipal Water District
Notes to the Basic Financial Statements (Continued)
For the Fiscal Years Ended June 30, 2014 and 2013

(10) Risk Management

The District is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Insurance coverage is provided by various carriers in amounts to meet statutory requirements.

(11) Governmental Accounting Standards Board Statements Issued, Not Yet Effective

The Governmental Accounting Standards Board (GASB) has issued several pronouncements prior to June 30, 2014, that has effective dates that may impact future financial presentations.

Governmental Accounting Standards Board Statement No. 68

In June 2012, the GASB issued Statement No. 68 – Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27. The primary objective of this Statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of Statement No. 27, Accounting for Pensions by State and Local Governmental Employers, as well as the requirements of Statement No. 50, Pension Disclosures, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements (hereafter jointly referred to as trusts) that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement. The provisions of Statement 68 are effective for fiscal years beginning after June 15, 2014. The impact of the implementation of this Statement to the District's financial statements has not been assessed at this time.

Governmental Accounting Standards Board Statement No. 69

In January 2013, the GASB issued Statement No. 69 – Government Combinations and Disposals of Government Operations. The objective of this Statement is to provide new accounting and financial reporting standards for government mergers and acquisitions and for government operations that have been transferred or sold. The provisions of this Statement are effective for financial statements for periods beginning after December 15, 2013. The impact of the implementation of this Statement to the District's financial statements has not been assessed at this time.

Governmental Accounting Standards Board Statement No. 71

In November 2013, the GASB issued Statement No. 71 – Pension Transition for Contributions made Subsequent to the Measurement Date – an amendment of GASB No. 68. The objective of this statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by state or local government employer or non-employer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The requirements of this Statement will eliminate the source of a potential significant understatement of restated beginning net position and expense in the first year of implementation of Statement No. 68 in the accrual-basis financial statements of employers and non-employer contributing entities. The provisions of this Statement are required to be applied simultaneously with the provisions of Statement No. 68.

The Governmental Accounting Standards Board (GASB) has issued several pronouncements prior to June 30, 2014, that has effective dates that may impact future financial presentations.

Notes to the Basic Financial Statements (Continued)
For the Fiscal Years Ended June 30, 2014 and 2013

(12) Commitments and Contingencies

Litigation

In the ordinary course of operations, the District is subject to claims and litigation from outside parties. After consultation with legal counsel, the District believes the ultimate outcome of such matters, if any, will not materially affect its financial condition.

(13) Subsequent Event

Events occurring after June 30, 2014 have been evaluated for possible adjustment to the financial statements or disclosure as of December 5, 2014, which is the date the financial statements were available to be issued.

Funded Status and Funding Progress of the Plan

Required Supplemental Information – Schedule of Funding Progress

Actuarial Valuation Date	Actuarial Value of Plan Assets (a)	Actuarial Accrued Liability (b)	Unfunded Actuarial Accrued Liability (UAAL) (b-a)	Funded Ratio (a/b)	Covered Payroll (c)	UAAL as a Percentage of Covered Payroll ((b-a)/c)
6/30/2014 \$	-	341,492	341,492	0.00%	\$ 3,800,000	8.99%
6/30/2013	-	119,836	119,836	0.00%	\$ 3,000,000	3.99%
6/30/2012	-	107,232	107,232	0.00%	\$ 3,000,000	3.57%

Funding progress is presented for the year(s) that an actuarial study has been prepared since the effective date of GASB Statement 45. Actuarial review and analysis of the post-employment benefits liability and funding status is performed every three years or annually if there are significant changes in the plan. The next scheduled actuarial review and analysis of the post-employment benefits liability and funding status will be performed in fiscal year 2015 based on the year ending June 30, 2014.

Independent Auditor's Report on Internal Control Over Financial Reporting And on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Directors
Lake Hemet Municipal Water District
Hemet, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Lake Hemet Municipal Water District (District), as of and for the years June 30, 2014 and 2013, and the related notes to the financial statements, which collectively comprises the District's basic financial statements, and have issued our report thereon dated December 5, 2014.

Internal Control Over Financial Reporting

In planning and performing our audits of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audits, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

**Independent Auditor's Report on Internal Controls Over Financial Reporting
And on Compliance and Other Matters Based on an Audit of Financial Statements
Performed in Accordance with *Government Auditing Standards*, (continued)**

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the district's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
